

Another Planet

A futuristic satellite or space station is shown in orbit around Earth. The satellite has a complex structure with multiple cylindrical modules and long, thin solar panels. A large, bright plume of light, possibly from a laser or a powerful light source, is directed at the satellite, creating a shimmering, multi-colored reflection on its metallic surfaces. The Earth is visible in the background, showing its blue and white clouds. The overall scene is set in the dark void of space, with some distant stars visible.

ANOTHER PLANET IS A COMPANY  
BASED ON AN UNDERSTANDING POINT  
BETWEEN ANYONE WHO IS INTERESTED  
IN A SAME TASTE OF ELECTRONIC  
MUSIC AS US.  
WE BELIEVE THAT MUSIC AND DANCE  
ARE TWO OF THE MOST IMPORTANT  
ASPECTS OF ANY CULTURE.

A futuristic space station is shown in orbit around Earth. The station has a complex, circular structure with various modules and a large satellite dish. In the foreground, an astronaut in a white spacesuit is seen from behind, looking towards the station. The Earth is visible in the background, and the overall scene is set against the dark backdrop of space.
